"life is a rollercoaster, so you might as well enjoy the ride"

### **practical experience**

Juanita Broom is an executive at ENSafrica in the mine and occupational health and safety department.

She has acted for local and international clients in the mining industry.

Juanita has assisted directors of the department to advise clients on the application of the Mine Health and Safety Act 29 of 1996 and representing clients during inquest, investigation and formal inquiry proceedings.

Juanita has been actively involved in the silicosis class action certification application which seeks to certify a class consisting of several thousand people. The class action certification application has been opposed by 32 respondents. In addition, Juanita has played an active part in defending 1256 individual claims instituted for damages allegedly caused by silicosis.

### **qualifications**

- LLB (University of Pretoria)
- Admitted as an attorney of the High Court of South Africa
