

ENSafrica Project Development and Project Finance

Pan-African firm recognised for its handling of infrastructure and mining work, as well as oil and gas. Also sought after for its expertise in renewable energy matters.

Chambers Global

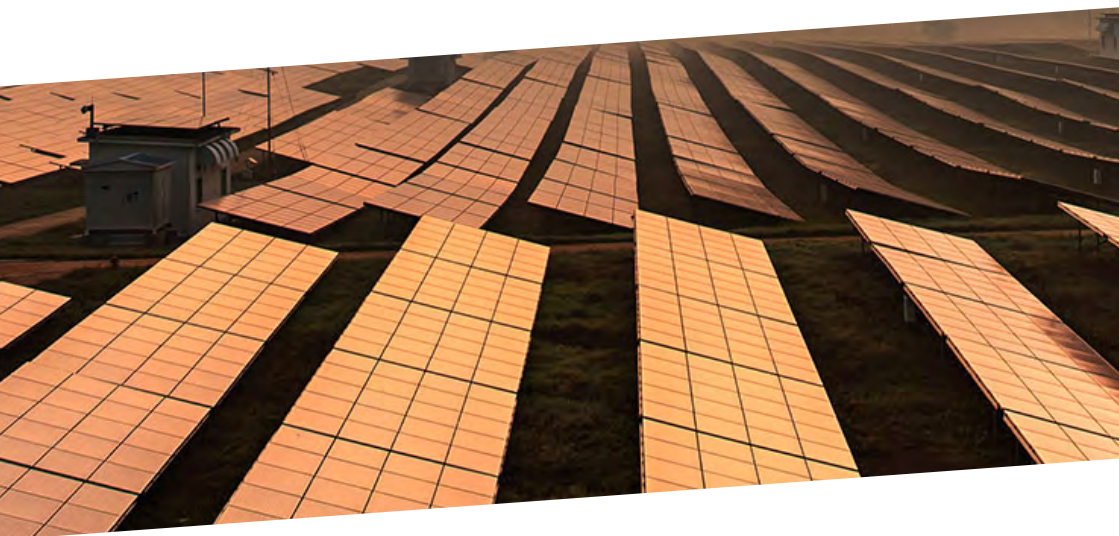

Infrastructure development is the main catalyst for growth on the African continent. As a truly African law firm, we have a deep appreciation of this context and the nuances of each country in which we operate.

Our dedicated and highly ranked project development and project finance team members are market leaders who work with top clients on highly complex cross-border infrastructure projects in specialist areas such as energy, oil and gas, rail, roads and ports, mine and resource development, public private partnerships and municipal infrastructure.

Our key differentiator is that our feet are planted firmly on African soil. Recognised as one of the larger project development advisory teams across Africa, our credible team has a depth of capacity and the ability to provide flexible, cost-effective solutions.

We are not only legal experts; we also understand the project development and financing dynamic, and have the commercial savvy and technical expertise to undertake a broad spectrum of project development work in an African context.

We also have the unique advantage, as part of Africa's largest law firm, to have available to us the expertise of more than 600 practitioners throughout the continent spanning all commercial areas of law, tax, forensics and IP.

As such, we regularly partner with specialists across the firm, meaning that we are able to assist with all aspects of all matters across all sectors in all African jurisdictions, ensuring that your legal requirements are handled quickly and seamlessly.

We advise on all aspects of project development and project finance, including:

- Energy: electricity generation, transmission and distribution
- Mine and resource development
- Municipal infrastructure development
- Oil and gas: upstream, midstream and downstream
- Public private partnerships (PPPs)
- Rail, roads and ports

clients value the firm's diligent approach and understanding of the local market, stating that the team is excellent, adding: They've been extremely helpful with a wide and extensive understanding and scope of the local conditions.

Chambers Global

they drop everything to help us

Chambers Global

the overall service is fantastic; they get back to us immediately, the people are friendly – it's just a great service and experience

Chambers Global
